DETAILED ACTION

Applicant's arguments filed 10/06/08 have been fully considered but they are not persuasive.

The Amendment submitted by Applicant does not overcome the rejection made by Examiner in the last Office action.

Note that claim 1 has been amended to include a further limitation in that said graftable hydroxy or carboxylic groups of the non-functional R2 chain being graftable by a compound selected from the group consisting of : ---, lipids, peptides, polyethers, natural polymers, cyclodextrins---.

Note that claim 26 of the reference does disclose said limitation “ the degradable polymer's derivative group is selected from the group consisting of alkyl groups or chains, ethers, peptides, lipids, sugars, polysaccharides----.

Any arguments based on the use of specific steps of the process have been fully considered but they are not persuasive since they are not commensurate in scope with the claims.

Applicant's arguments are also based on the graftable products. Since the reference does disclose the claimed requirements then the graftable products must be considered inherent in the prior art.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1796

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
